Hair Styling 101: A User's Guide

Unless you're rocking a buzz, your hair probably requires a little more attention than just a shampoo, condition and an 8-second towel dry.

So, where to start? Whether it's straight & shiny, or curly with a matte finish, here are some important factors to consider before choosing a men's styling product.

Fact or Fiction?

The biggest myths guys have about washing their face.

Your face takes a beating. Regular cleansing is integral to remove the dirt, debris and sweat to maintain healthy and balanced skin. See why using a gentle, exfoliating face wash twice a day is important, and **we'll debunk some common misconceptions** along the way.

"The skin on my face and body are the same."

Definitely not, see why your face is more susceptible to wrinkling and dehydration vs. anywhere else.

"I'll use the same product for my body & face."

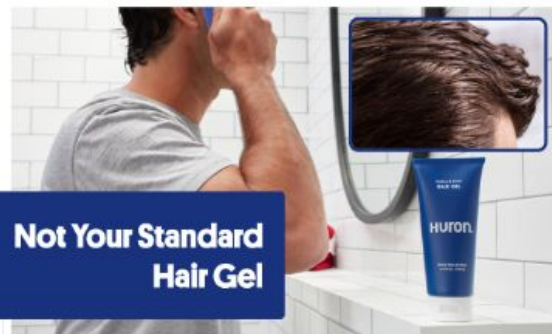

Washing your face = good. Washing your face with something not intended for your face = bad.

"The more frequent I wash, the more effective."

Twice is nice, but did you know that over-washing can have unintended effects?
